Dr Ed Anderson has been invited to speak to the staff of the Chicago RTA on 26 June. This is a significant step, said Ed, given that Chicago has had a chance at PRT before in the 1990's and the project was not successful. Ed has provided comment on that as noted on this site (just search on Chicago RTA)

Nevertheless, given the outcome of the recent Booz Allen report (on this site also) to the New Jersey legislature, it may very well be a question of "the right things at the right time".
